

The map displays the 1990 Census route for Precinct 009, which is a combination of Deaf Smith County Precinct 117 and Curry County Precinct 009. The route is marked with a series of dots and lines, showing the path of the census taker. The map is divided into two main sections labeled 1 and 2. Section 1 is located in the northern part of the precinct, and Section 2 is located in the southern part. The map includes various landmarks such as Melrose, Cannon AFB, and Clovis. The route starts in the north, goes south, then east, then south again, and finally east to the border with Curry County. The map also shows the surrounding areas of Deaf Smith and Curry counties.

SYMBOL	NAME STYLE
*****	INTERNATIONAL
*****	<b>AIR</b>
*****	<b>Trust Land</b>
◆◆◆◆◆	<b>TJSA / TDSA / ANVSA</b>
▽▽▽▽▽	<b>ANRC</b>
####	MINOR CIVIL DIV <sup>1</sup> / CCD
####	Place within Subject Entity
####	<b>Incorporated Place / CDP<sup>1</sup></b>
####	Place outside of Subject Entity
####	<b>Incorporated Place / CDP<sup>1</sup></b>
####	<b>Census Tract / BNA<sup>2</sup></b>

ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; TJS = Tribal Jurisdiction Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CCD = Census Civil Division; CDP = Census Designated Place; BNA = Block Numbering Area

The diagram illustrates five types of boundaries and their representation on maps:

- All Roads:** Represented by a solid line. Map example: *Stream/Shoreline*.
- Railroad:** Represented by a line with cross-ticks. Map example: *Intermittent Stream*.
- Pipe/Power Line:** Represented by a line with small squares. Map example: *River*.
- Physical Feature:** Represented by a line with wavy ticks. Map example: *Glacier*.
- Nonvisible Boundary:** Represented by a dashed line.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

<sup>1</sup> A '\*' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

<sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '-99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
